

**LEADERSHIP AND  
CONSEQUENCE  
MANAGEMENT  
WORKSHOP  
REGISTRATION BROCHURE**

**18-21 July 2023**  
Brisbane

# INTRODUCTION

## WORKSHOP OVERVIEW

The all-member non-accredited workshop will be delivered for all functions across four (4) days and focus on Leadership and Consequence Management. It will help develop members' BAU leadership skills, in addition to those that are relevant to a biosecurity emergency response. The key concepts of consequence management will be explored and how they are managed as individuals, leaders, within functional areas, and collectively by the response.

# PROGRAM SUMMARY

NBRT have an amazing team of experts who come together to deliver this Leadership and Crisis Management workshop for its members. Bringing together a team of emergency experts who are experienced in crisis, incident and emergency management with a passion for building strong leadership capability. Combined with biosecurity expertise to bring you an experienced team who will explore areas of consequence management and how that affects leadership decisions in a biosecurity response. The team aims to make your week a valuable learning experience, with years of combined experiences and knowledge to share with you. The delivery team recognises the importance of planning and leadership prior to any emergency and is able to give value and support to our NBRT members in this all of cohort professional development opportunity.

## **Andrew Faunce, Jeff Hogan & Trent Lawrence** | Decisive Crisis Management

Decisive Crisis Management is a collaboration of incident and emergency management professionals who have more than 100 years of combined experience in responding to and managing emergencies. DCM have combined their experience to build a team that has strong, realistic and expert capabilities in crisis management.

The team aims to train leaders to have the mental readiness for crisis response and believes that leaders who are mentally prepared have an advantage in managing the consequences of a crisis, which leads to building personal and organisational resilience. Together the team brings a wealth of experience, skills, qualifications, and insights to share with the NBRT.

## **Ron Glanville** | Biosecurity Advisory Service

Ron has worked for over 45 years in the field of Biosecurity, in policy, scientific and operational areas, within the areas of animal and plant health as well as invasive plants and animals.. Until 2010 Ron was Chief Biosecurity Officer and Chief Veterinary Officer with Biosecurity Queensland. Ron has a wealth of deployment and incident management experience with leadership roles within over 30 biosecurity emergencies. One of Ron's greatest career challenges was leading the Queensland response to the incursion of equine influenza (EI) in Australia. This was Australia's largest animal disease emergency response and brought many challenges with which Ron can share.

## **Mike House**

Mike House is one of Australia's leading survival instructors and a highly experienced facilitator. By observing and leading people in complex situations of extreme deprivation and duress, Mike has developed a keen insight into how humans either panic and suffer or adapt and thrive. Mike has survived several life-threatening survival situations on the ocean, in tropical jungles, in raging white-water and extended sea kayak journeys. It is that depth of experience and wisdom that makes hearing from Mike informative, colourful, deep and profound.

## TRAVEL AND ACCOMMODATION

Reasonable travel and accommodation expenses of NBRT members for attending the workshop will be covered by the NBRT program.

**To book your travel and accommodation, please complete and submit a [Travel Request Form](#) and return it to [NBRT@animalhealthaustralia.com.au](mailto:NBRT@animalhealthaustralia.com.au)**

We have two recommended options for accommodation. Bookings will be subject to availability. To ensure a spot at one of our recommended hotels please return your travel form asap.

1. [Mercure King George Square](#) which is part of the Pullman / Mercure complex.
2. [The George Williams Hotel](#) within the same block as the Pullman / Mercure.

You will receive confirmation of your flights &/or accommodation from our Corporate Traveller. Should you need your travel and/or accommodation arrangements changed, please notify Animal Health Australia and Corporate Traveller at your earliest convenience.

## CLAIMING EXPENSES

Reasonable expenses incurred by NBRT members for the purposes of attending the workshop, such as taxi fares and meals, can be reimbursed. However, items such as alcohol and minibar purchases are not included.

To claim expenses, please complete and submit an [Expense Claim Form](#) **with receipts within 30 days of the workshop** (also found on the [NBRT members' portal](#), under 'Resources' > 'NBRT Program'). Alternatively, reasonable expenses covered using workplace credit cards can be claimed back by the relevant agency by invoicing Animal Health Australia.

### Travel policies

Please note that, unless agreed to in advance and in writing, neither Animal Health Australia nor the Program will be responsible for covering costs outside of what has been described within these joining instructions (e.g. costs associated with quarantine; health services etc). As such, it is strongly recommended that participants refer to their agency's travel policies and the relevant health guidelines prior to arranging travel and accommodation.
